THURSDAY

FRIDAY

ONLY ONE 6TH CARD
PER WEEK, ONE PERSON

MUST MATCH
YOUR ITEM

*the diamond above is
the Item habitus shape*

COSTS 1 MOTIVATION
+ A FLEX MARKER

ORDER DOES NOT MATTER

W E E K 1

The week

T H E O N E I D E A

A week is five days, and you choose them.

O N T H E T A B L E

The week strip and the six features.
Your figure, your Knowledge, your Motivation.
Nothing else yet.

C A R D S I N P L A Y

W O R K · C O O R D I N A T E · C E L E B R A T E

H O W A W E E K R U N S

Lay five cards across Monday to Friday.
Put a disc under each to say who takes that day.
Resolve all five - the order does not matter.
Then close the week.

That is the whole lesson. It gets worse.

S H I T H A P P E N S

Draw **two** Event cards, face up. **Don't resolve them.**

Only after all five day cards are laid out. They are threats, not yet facts.

DECK

EVENT 1

EVENT 2

A D A P T E A C H E V E N T O N I T S O W N

Deal with both Events now. **Nothing resolves until this step is finished.**

ADAPTABILITY

Match your coin on the **TEAM board**. Just 1 until week 3.
Replace a day card: 1.
Cancel an Event: its ADAPT no.

EVENT 1

HERO · CANCELS IT

Needs the part it names, and 3+ Motivation.
Gives +2 Capital and +1 Motivation to another.

Once per game, each character.

EVENT 2

HERO · CANCELS IT

Needs the part it names, and 3+ Motivation.
Gives +2 Capital and +1 Motivation to another.

Once per game, each character.

Each Event is dealt with on its own. Resolve whatever is left, then the week runs.

C L O S E T H E W E E K

TOP TO BOTTOM

- 1

Anything finished? Put its block on the tower.
Lift the lock it opens. +1 Capital to whoever worked on it.
- 2

Move the coins. One step each, no more.
Any coin that reached its ring turns over - and stays turned.
- 3

Everyone loses 1 Motivation.
Add it up first, *then* see if anyone is empty. Empty means they leave.
FROM WEEK 4: +1 BACK IF THEIR NEED WAS MET
- 4

Move the week marker. One week closer to the deadline.
The deadline does not move. Nothing else happens here.

Step 1 comes first because banking is what pays the Capital that step 2 needs.

W E E K 2

Reality

T H E O N E I D E A

Your plan was made
in ignorance.

W H A T O P E N S

Shit Happens. Draw two Events, face up,
and do not resolve them yet.

Adapt. 1 Adaptability this week. Spend it to
replace a card, or pay an Event's ADAPT
number to cancel it outright.

Then resolve whatever you did not cancel.

C A R D S A D D E D

NOTHING NEW

Nothing changed except when you find out.

One coin per row. Walk it as the track moves. At the ring, turn it over - that is a **Habit**, and it is permanent. The coin can walk back down afterwards. It never turns back over. The left column is what the team does; the right is what it has become, and who named it.

FLIP → HABIT

HABIT - PRINTED ON THE EVENT CARDS

Trust

grown by Coordinate, and by Meet

Psychological Safety

EDMONDSON 1999

Capability

grown by filling a whole row or column on the Zone

Who Knows What

WEGNER 1986 · TRANSACTIVE MEMORY

Shared Practice

grown by Reflect, and by stacking a square on the Zone

Shared Repertoire

LAVE & WENGER 1991 · WENGER 1998

Adaptability

grown by Reflect, by Align with nothing Unclear, and by Meet

Team Reflexivity

WEST 1996

Standing

the fifth row, on its own strip

SHEET 3b GOES HERE , FACE DOWN

TURN IT OVER IN PLACE AT THE START OF WEEK 4

A track rises at most one step a week. Every Habit **raises the week's Work cap by 1** - and what else it does is printed on the Event cards.

TURN ME OVER AT THE START OF WEEK 3

WEEK 3

The team

THE ONE IDEA

It was never only the project.

WHAT OPENS

The Ledger: Trust, Capability, Shared Practice, Adaptability. One coin walks each row; at the ring it turns over and becomes a **Habit**, for good.

Adapt is now your full Adaptability, not 1.

CATCH UP BEFORE YOU PLAY

Move Trust up **1 for every two Coordinate cards** the team has already played.

Everything else starts where it always was, at 2. Nothing has been lost by starting small.

CARDS ADDED

LEARN · ALIGN · REFLECT · MEET

It was counting all along.

Rows are what you were trained in. Columns are what you work through. A square is the practice that training makes with that instrument.
Everyone covers squares on this one board, so the whole table can see who can do what.

EDUCATION

	MACHINE	ROOM	T O O L DOCUMENT	NUMBERS	SCHEDULE
Technical <i>how the thing works</i>	Build	Toolbox talk	Spec	Benchmark	Critical path
Social <i>how people work</i>	Pair work	Facilitation	Write-up	Survey	Rota
Commercial <i>what it is worth</i>	Demo rig	Pitch	Contract	Forecast	Roadmap
Analytical <i>what the numbers say</i>	Prototype	Review	Report	Model	Estimate
Organisational <i>how it gets done</i>	Pipeline	Stand-up	Process	Audit	Plan
	WORK	COORDINATE	ALIGN	LEARN	PLAN

a column you cover is a card you are better at

How you cover a square, and what the Ledger reads off this grid, are on sheet 4b from week 3 - they need Learn/Teach and the Ledger, and neither exists yet.

W H A T Y O U C A N D O

Every square you **cover** gives **+1** to the card named under its column. You keep everything you cover.

Two squares in one column is two ways of working, not twice the output: +1 per column, however many you cover in it.

Tiles are 20 mm, the size of a square. When a second person covers a square, offset the tile so the colour underneath still shows.

At setup you cover **one** square: where your Legs row meets your Item column. Everything after that is learned or taught.

Upbringing, values and instinct are not on this board. Bourdieu's embodied capital cannot be handed over - only a training and an instrument can, and those are the two axes here.

THIS SIDE NEVER SHOWS DURING PLAY

THE ZONE

Shared, and visible from week 1. It never turns over.

WHY THIS FACE EXISTS

Boards 1-3 flip weekly to reveal a rule. The Zone has nothing to reveal - it is live from turn one, so there is no week this side would ever show. It is printed only so this board glues to cardboard the same way the others do, and so the table-placement guide can sit on every board's reverse, front and back alike.

If you are reading this at the table, the Zone is face down.

FACE A · THE PAY OFF *Flips up at the start of week 3*

HOW YOU COVER

LEARN pick up a new tool, **left or right**
 of one you cover, in your own row. No teacher needed.

TEACH let someone cover a square you hold - **up, down,**
 left or right of one they cover, in any row.

*Always one step from what you already cover, never a diagonal leap -
Vygotsky's Zone of Proximal Development.*

THE LEDGER READS THIS

CAPABILITY · A FULL LINE
fill any whole row or whole column

SHARED PRACTICE · A STACK
two of you covering the same square

One step a week, as ever. A column can only be filled by teaching.

BOURDIEU 1986 · FORMS OF CAPITAL · VYGOTSKY 1978 · ZONE OF PROXIMAL DEV./SCAFF. · MARX 1846

FACE B · UNTIL WEEK *Flips the side showing while it sits beside sheet 4*

TURN ME OVER

START OF WEEK 3

The Zone has more to it than the grid.

Covering a square is only half of it - what you do with a
square you already cover comes next.

ALSO NOW: THE LEDGER FLIPS TO ITS FRONT

Cut both panels out, glue them to opposite faces of one piece of 2 mm greyboard -
Face A and Face B on the same board. Stand it beside sheet 4 with Face B showing,
and turn it over in place at the start of week 3.

F A C E A · T H E R O W *this is the side you turn up at the start of week 4*

Standing
grown by nobody

Authorized Voice
Once a week: cancel an Event, or
Collective Bargaining - *shield a*
teammate's Performance Review instead.
BOURDIEU 1991 · FOUCAULT 1975

F A C E B · U N T I L W E E K 4 *this is the side showing while the strip sits in its slot*

T U R N M E O V E R · S T A R T O F W E E K 4

Standing joins the Ledger.
It is not grown. It mirrors the highest Capital at the table - your place in the room is on loan.
ALSO NOW: A FACE-DOWN QUALITY CHIP GOES ON EACH FEATURE

Cut both panels out. Glue them to opposite faces of one piece of 2 mm greyboard - **Face A and Face B on the same strip.**
Drop it into the dashed slot at the foot of sheet 3 with **Face B** showing, and turn it over in place when week 4 begins.

your own Motivation, never Work

Bookish  LEARN: +1 MOTIVATION Theory first, then hands, eventually. TEACH: -1 MOTIVATION <i>books first, hands later</i>	Hands-On  TEACH: +1 MOTIVATION You fix it, then explain it - maybe. LEARN: -1 MOTIVATION <i>fix it first, ask later</i>	Sheltered  GRIND DOESN'T TOUCH YOU The highs and lows never quite reached you. NEVER OVER 3 MOTIVATION <i>you never had to brace</i>	Strict  IGNORE 1ST EVENT LOSS/WK There's a right way to do this. NEVER SPENDS ON OVERTIME <i>one way, no exceptions</i>	Competitive  HERO BELOW 3 MOTIVATION You needed this win more than they did. ANOTHER'S HERO: -1 MOTIV. <i>second place is losing</i>
--	---	--	---	--

LEGS · EDUCATION → WHERE YOU START

the row you begin in on the Zone

Technical  WORK You are quicker at the building itself.	Social  COORDINATE People say the awkward thing when you're there.	Commercial  ALIGN You get a straight answer out of the customer.	Analytical  LEARN You can explain a thing so it stays explained.	Organisational  PLAN You know whose sign-off this needs, and how fast.
---	--	--	--	--

TORSO · VALUES → HOW EVENTS LAND

your Torso is also your Need, from week 4

Autonomy  MANAGEMENT: LOSE 1 MOTIV. IMMUNE TO ENVIRONMENT +1 CAPITAL: SHARED REPERTOIRE NEED: finished the day you were given <i>let me get on with it</i>	Hierarchy  ENVIRONMENT: LOSE 1 MOTIV. IMMUNE TO MANAGEMENT +1 CAPITAL: WHO KNOWS WHAT NEED: you taught, or spent your Hero <i>they must have a reason</i>	Community  PEOPLE: LOSE 1 MOTIVATION IMMUNE TO CUSTOMER +1 CAPITAL: PSYCH. SAFETY NEED: team Coordinated or Celebrated <i>are we all alright?</i>	Quality  CUSTOMER: LOSE 1 MOTIV. IMMUNE TO PEOPLE +1 CAPITAL: TEAM REFLEX. NEED: team Aligned, or Unclear cleared <i>not shipping that.</i>	Recognition  NO EVENT CATEGORY EITHER WAY +1 CAPITAL: NEED MET NEED: a feature banked, or your Demo landed <i>did anyone notice?</i>
---	--	--	--	--

HEAD · PRESSURE RESPONSE → STRENGTH, COST

every part is a Hero trigger somewhere

Take Charge  +1 WORK IF CAPITAL ≥ AVG Somebody has to decide. OTHERWISE LOSE 1 TRUST <i>somebody has to decide</i>	Analyze  YOUR ALIGN ALSO +1 TRUST The question everyone was avoiding. WORK ON UNCLEAR: 1 LESS <i>what are we solving?</i>	Support  COORDINATE: ALL +1 MOTIV. People leave the room feeling better. YOUR WORK IS ALWAYS 1 <i>is everyone alright?</i>	Challenge  REFUSE 1 LOW-QUAL. DEMO ASK The thing everyone was quietly worried about. NO CAPITAL BACKING: LOSE 1 <i>with respect, no</i>	Withdraw  +1 WORK, QUIET WEEK No Coordinate or Align played that week. NEVER JOINS: LOSE 1 TRUST <i>I'll get on with it</i>
--	---	--	---	---

ITEM · THE TOOL YOU HOLD → OVERTIME PICK

also the column you begin in on the Zone

Laptop  WORK You stay late and build.	Coffee cup  COORDINATE You keep people going.	Clipboard  ALIGN You sort it out yourself.	Wrench  LEARN You show someone how.	Calendar  PLAN You already blocked the time.
---	---	--	---	--

Same skill, different person: two characters can both hold the clipboard. One defers to the boss without thinking; one doesn't. That difference is the whole point - it is what the Torso and Head are for.

HOW TO PLAY

ONE NEW IDEA A WEEK - THE BOARDS UNCOVER THEMSELVES

Seven weeks. Five days a week, for the whole team. Six features. One deadline that does not move.

SETTING UP

about fifteen minutes, and the first part is the best part

1 · DEAL EVERYONE A CHARACTER - BEFORE ANY RULE IS EXPLAINED

Deal each player five parts at random, one from each row of the habitus sheet, and **assemble the figure**: Base → Legs → Torso → Head → Item. You are *handed* a habitus, not asked to choose one - nobody picks their upbringing. Slot the cards into the seats on your person board. Take your Base's Knowledge card. Ninety seconds, no decisions, and everyone has touched the game.

2 · LEAVE THE OTHER BOARDS FACE DOWN, AND CHOOSE THE PROJECT

Only **board 1** starts face up. Boards **2** and **3** stay text side up; the **Specimen strips** stay in the box until week 4. Put one Project card in its seat; it names features A - F. LOCK tiles across **D** and **F**. Out come **Work, Coordinate, Celebrate**.

3 · SET THE STARTING VALUES

Motivation 3 for every character (three tokens in the five wells). Week marker on Week 1. Shuffle the Events but don't draw yet. Everything on the covered boards already sits at **2**. It just isn't your problem for two more weeks.

THE PULSE OF A WEEK

seven times, then it's over

1 · PLAN THE WEEK

Lay **five Activity cards** across Monday to Friday. Put a character disc on each - that person's Skill, Knowledge and **Capital** apply to that day. One person may take several days, or none. A slot may instead take a **Flex marker**, giving back a day someone worked as Overtime. *Then stop. Nothing has resolved.*

2 · SHIT HAPPENS

Draw **two Event cards, face up** - and **do not resolve them yet**. They are threats, not facts. They are aimed at the week you have already committed, which is the point. *A day spent on the wrong thing is simply lost.*

3 · ADAPT

Spend [**Adaptability**]: each 1 replaces one card, or pays an Event's ADAPT number to cancel it outright.

4 · THE WEEK RUNS

Resolve whatever survived Adapt, then all five cards. **Order does not matter** - the week happened at once. Total it up and move the counters. There is no separate resolution step.

5 · CLOSE THE WEEK

Bank completed features (lift any lock, pay Capital) → **walk the Ledger** coins, at most one step each, and flip any that reached its ring → **Motivation as one net number**: lose 1 to the grind, +1 if the Need was met.

bank first - it pays the capital the ledger applies motivation as one number, then check

HOW IT ENDS

the project ends when Week 7 closes

TEAM SCORE = (features × 10) + (four track values) + (Motivation), LESS 5 PER QUIT AND PER UNREPAID FLEX

FAILURE

Not everything delivered.
The score doesn't matter.

HEROIC SUCCESS

All six banked, score under 80.
The project made it. The team didn't.

HIGH PERFORMANCE

All six banked, score 80+.
You built a team as well.

If you only had thirty-five working days, how would you spend them?
